## ANNUAL REPORT 2021

# LETTER FROM THE PRESIDENT

Dear friends and collaborators,

Another year has passed and I am so proud to present our annual activities' report.

Even though it has been a difficult year for everyone, some good comes from tough times and for us, our "Smiles on Wheels" project in Madrid has brought much pleasure. Precisely because of the pandemic our bikes have been in more demand than ever. As everyone was forced to spend time outdoors, families and organisations with people with disabilities have been enjoying our bikes. The cover photo says a lot about our project:

For the first time Britta, the mother of a young man with a disability, and her family have been able to go on a bike tour. For families that do not have a child with a disability, it seems very normal to go out on a bike. But it is not for many other families who have very few options for outdoor activities. Adapted bicycles are prohibitively expensive, making them impossible for most families to purchase them. Because we won Santander's award "Euros de tu Nómina" we have been able to acquire more bicycles, so that not only families can participate, but also larger groups of children and young people with disabilities.

**Many thanks to the Banco Santander employees for voting for us!**

In Alicante we also won an award, the "Sustainable Future" award from BBVA Asset Management. With the money received from this award we have built a wooden "chalet" in which we can offer support to families, giving them a break as their children spend time with us on Saturdays participating in activities with the young people from our home, creating a community. This would not be possible without our wonderful volunteers and fantastic facilities. It is wonderful to watch all these young people who join us on Saturdays mix and go out together on our bikes. Thanks once again to the volunteers who are fostering these bonds of friendship in San Juan de Alicante.

**Thank you very much BBVA Asset Management!**

Our team has used the disruption from the Covid pandemic and funds donated to improve our system's digitization and introduce new technologies

Due to the great demand for our therapies, we are planning to expand our facilities by increasing the number of rooms. This will also allow us to make much better use of the sensory garden, as this is part of some of the therapies. We remain very grateful to the **City Council of San Juan de Alicante**, which at the time gave us the use of the land of the LKF Center.

There have also been important changes in our team. Our manager since 2010, Susana Pérez Herrero, leaves the foundation to dedicate herself fully to a new personal project. I would like to thank her for her work over all these years in the foundation. She today leaves behind an entity in which many things have been achieved and of which she can be very proud. I say goodbye, wishing you well in your future endeavours and thank you for all your support and trust in the foundation.

It is a pleasure to introduce you to José Redondo Sánchez, our new manager, to whom I wish all the best in his new role.

**Anne Marie Otten**

# LUKAS FOUNDATION: OUR MISSION

*Help people with serious functional diversity  
as well as their families.*

## OUR VALUES

Respect for human dignity  
Social inclusion  
Proximity  
Positivity  
Transparency in management  
Ethical commitment  
Excellence

# OUR ACHIEVEMENTS IN 2021

## We received the BBVA Sustainable Future Award 2021

Thanks to BBVA Asset Management we built our "chalet" for Leisure Activities and Family Breaks

## We won the employees' vote: "Euros from your payroll" from Banco Santander

We reactivated the Adapted Bicycle rental service in Madrid through our "Smiles on Wheels" project.

## We continue with the Digitization in LKF

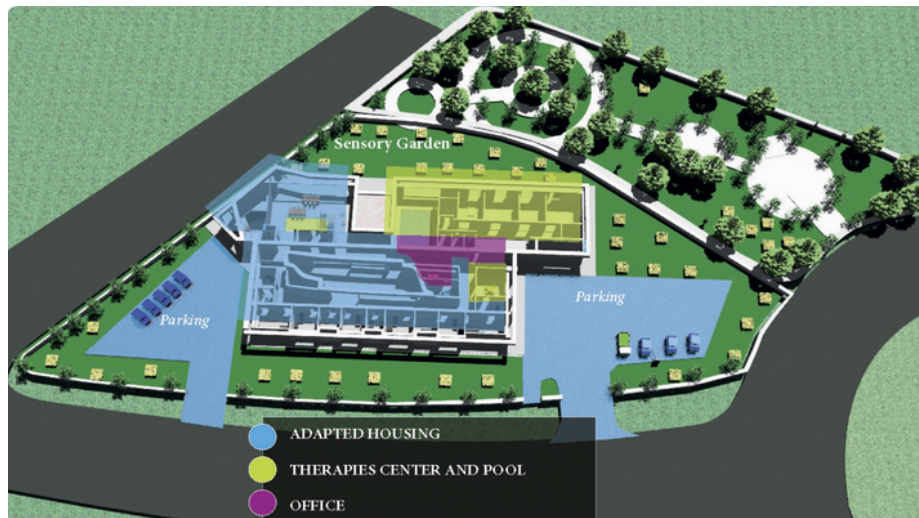

We received training to work with Google Workspace and different digital platforms thanks to a private donor and Foundation Banco Santander

# LKF CENTER: INNOVATIVE MODEL

The 100% adapted Center is located in San Juan de Alicante and consists of:

- An Assisted Sheltered Housing for people with severe disabilities
- Therapy Center (physiotherapy, aquatic therapy, psychology, speech therapy, occupational therapy ...)
- Sensory garden (with vegetable garden, bocchia court and adapted swings)

## THEY CAME TO VISIT US

At the LKF Center we usually receive different associations, political personalities, training centers or families interested in learning about our work. Due to the regulations that prevailed during the pandemic, these visits were limited. Even so, they came to meet us:

Social workers from the dependency area of the Sant Joan d'Alacant City Council.

Visit from Ton, Linda and Pim van der Veer

## Information service for families

Due to the social and health restrictions, face-to-face attendance at the LKF Center in 2021 has continued to be very restricted. However, through virtual networks and connections, services have remained open allowing us to continue offering all people with disabilities and their families all the information, support and advice in relation to the social resources available. Of the 70 users involved, 44 were contacted virtually and 26 in person.

# A DREAM COME TRUE

The testimonies like the ones this mother recently wrote remind us how important the work we do is. we share:

**“You have embroidered it”**

When our son became of an age where he could live more independently we began to look at the possibilities. We discovered the Lukas Foundation and from the first moment we stepped into the Home, we were impressed.

The common areas are spacious with lots of light. Large windows look onto the green areas outside. From the living room you can access a multi-sensory room, which offers music, different lights and a waterbed with adjustable levels of movement. We immediately liked this room and it was hard to leave it. It was clear that the young people who live in this home gained a lot of enjoyment from this room.

The kitchen and dining room are in one part of the living room and we found them to be well equipped and functional. Residents and caregivers take meals together, creating an atmosphere of family conviviality. The whole house is diaphanous which in the case of our son with his reduced field of vision is essential. The corridors are wide and each person has their own large room. We very much like the idea of each person having a single room which offers independence and the space to develop daily habits. Each bathroom is well equipped for people with special needs and is shared for every two rooms. The home from home is well decorated giving it a neat and cheerful atmosphere. Behind the house is a large green area, enclosed for everyone's safety. Next to the house, but independent, there is a therapy center open to the general public. This center offers the possibility for our son to continue with therapeutic support in the afternoons. Proximity to a hospital is a plus.

The Foundation has made considerable effort to ensure that the environmental impact of the facilities is as low as possible. The professionals took all the time we needed to respond to our questions and doubts. Parents are welcome to share time with their children whenever they want, individually or in group activities, a sign of the absolute transparency that guides the project. Residents ride adapted bicycles with their caretakers once a week. There is even an indoor pool that they can use weekly. **But what impressed us most were the effort, work and enthusiasm of the people of the Lukas Foundation who have created this unique project.**

When we toured the building, we realized that the pillars on which these facilities have been built are the interest of all involved to do their job well the focus on the well-being of the people living in this home from home, and attention to the smallest detail to make it a cosy and functional space.

The concept of home from home is reflected throughout the house and makes it easy for us to imagine our son living there. In the child's best interest, the move is planned together with the family, always looking for the best for the new resident.

**This is the essence of LKF**

# IN CONSTANT TRANSFORMATION

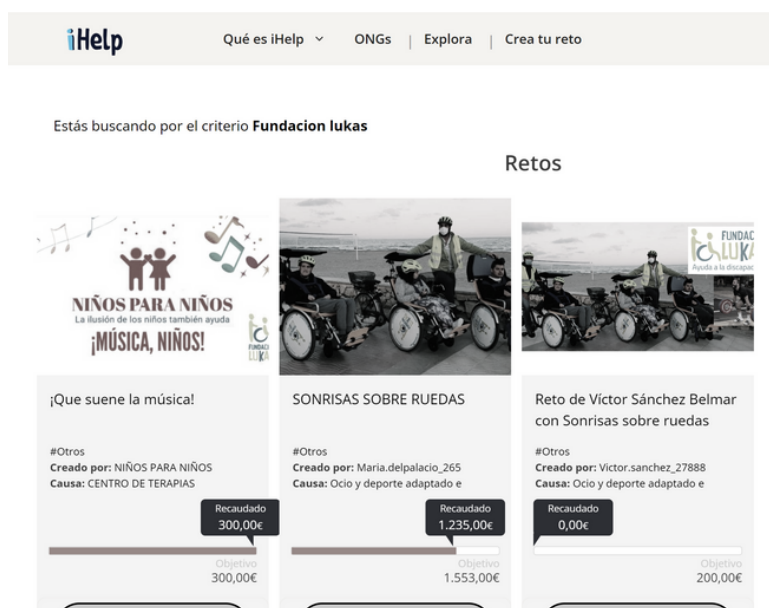

The situation caused by the pandemic has made the transformation of entities essential, and digitization is a matter of survival for our foundation.

We needed training in digital programs and social networks to create new fundraising channels in a new world where digital transformation has currently prevailed.

The difficulty in holding face-to-face events forced us to look for new digital channels for fundraising.

Thanks to the Banco de Santander Foundation, through training on "Digital Transformation for non-profit entities" and their financial contribution, we were able to hire a temporary person to carry out Fundraising on a digital platform: **IHELP**

Through the IHELP Foundation platform, we launched the solidarity challenge "**Smiles on wheels**" and with the donations of many people, we were able to renew the batteries of our fleet of adapted bicycles.

We bought musical instruments thanks to the charity challenge started by a 12-year-old boy, Christian.

## OUR FAMILY SUPPORT PROGRAMS

Due to the new regulations to avoid contagion, our SUPPORT FAMILIES program had to be temporarily halted. Since we consider these programs essential, we decided to continue the support outside.

We built a wooden chalet in the garden to continue the family respite programs. To fund this we applied and won the BBVA Sustainable Future award. Work began this year and next year it will be fully operational.

Thanks to:

Asset Management **We continue to offer our “family breathes” program.**

We held 2 awareness days at the Casa-Hogar. Adapting to the circumstances imposed by the health situation, one was carried out virtually with the participation of the young people of the Casa-Hogar and the second face-to-face with Housing professionals and Banco Santander employees from the Sant Joan d'Alacant.

Sant Joan d'Alacant**

11/15/2021

# OUR HOUSE-HOME

The Lukas Foundation Assisted Sheltered Housing resource is aimed at a very specific sector of the population: young people affected by **Severe Multiple Disability** and their families. The Casa-Hogar is a pioneering model in the care of severe multiple disabilities, and in circumstances such as those experienced due to the Pandemic, it has proven to be a safer type of residential resource due to its size and characteristics.

GENERALITAT  
VALENCIANA

Centro Concertado  
integrado en el Sistema  
Público Valenciano de  
Servicios Sociales

ER-0458/2019

## Concerted Center integrated in the Valencian Public System of Social Services

- Assisted and fully adapted sheltered housing
- Qualified staff 24 hours a day to carry out different activities on a daily basis
- Human, personal and family treatment in a spacious and bright space
- Participation of families and active social life taking care of the measures
- Six places partially subsidized by the Generalitat Valenciana

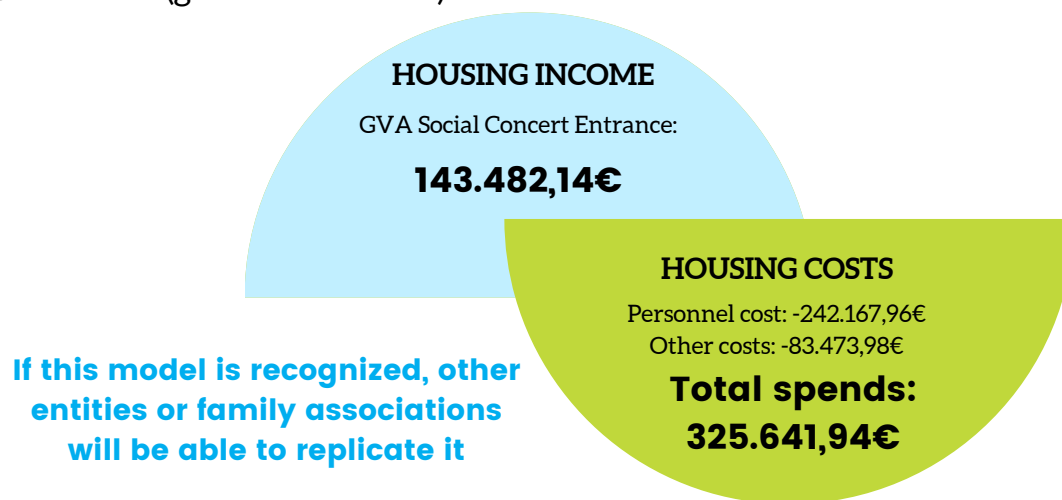

Raquel joins the house

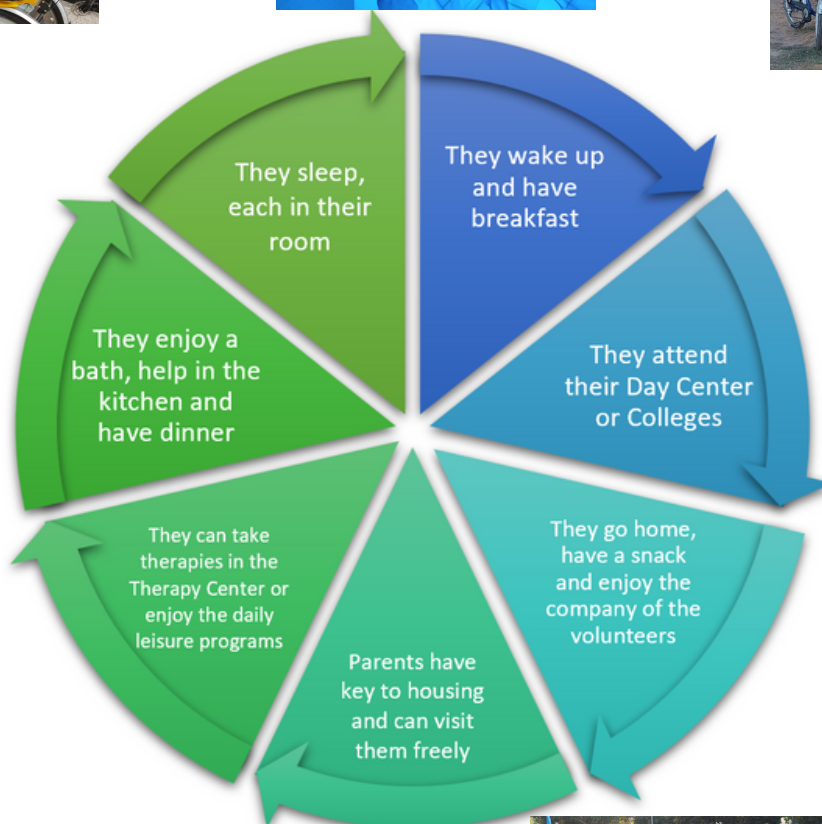

With the collaboration of the 'Sé Solidario' program of:

Fundación  
**MAPFRE**

We work so that this model is recognized by the administration and is endowed with the necessary subsidies for the care of young people with severe multiple disabilities (greater than 75%).

## What do we do in the House-Home?

# THERAPIES CENTER

Our Therapy Center is open to the general public offering a wide variety of therapeutic activities to people with any degree of disability or type of dysfunction. Despite the health situation caused by Covid-19, we were able to resume therapies in person, taking all the necessary security measures.

2021

2020  
SESSIONS  
**2509**

## A Therapy Center with a wide variety of therapeutic activities in charge of highly qualified staff

- Physiotherapy
- Aquatic therapy
- Speech therapy
- Psychology
- Occupational Therapy
- Postural Adaptations

**Thanks to several entities and private donors, 490 therapy sessions have been granted during 2021**

Fundación  
**MAPFRE**

## Reopening of our fully adapted therapeutic pool

Thanks to the training offered to our team, the pool has reopened offering a wide range of therapies and services.

At the end of 2021, we started an Aquatic Therapy activity with 9 children from CIL classroom of the CEIP El Salvador, in Mutxamel. They came with their teacher, their counsellor and two therapists with great challenges to achieve. At the end, it was a very rewarding activity.

## We received donations for the acquisition of:

### MUSICAL INSTRUMENTS

Thanks to Christian's Solidarity Challenge "Let the music play" on the digital platform:

### SENSORY INTEGRATION STRUCTURE

For the Occupational Therapy room where our users work with different elements in order to stimulate various senses.

Thanks to the donation of **Fundación MAPFRE**

**At the end of 2021 we became part of the list of Centers proposed for carrying out therapies in the Service of Outsourcing of the San Juan Hospital.**

In February María Moñino joined as speech therapist to help all our young people to develop their communication skills and language.

If you are interested call **965 65 18 83** or write to [terapias@fundacionlukas.org](mailto:terapias@fundacionlukas.org)

# ADAPTED LEISURE

## ADAPTED BIKES

Our adapted bicycle service is gradually expanding and the bikes are proving to be the current model of leisure and service that society requires of the 21st century: sustainable and participatory with families and institutions who serve people with any type of disability or reduced mobility able to take advantage of them. They offer leisure and sports adapted to the open air, without danger of contagion and at the same time include many people with some type of disability, especially those with degree higher than 75%, for which there are very limited joint leisure options.

**BENEFICIARIES**  
**411**

### Alicante

Our adapted bicycles enabled us to be outside and we were able to enjoy fun weekly trips with our volunteers. This offered lots of enjoyment and also gave our young people much needed contact when so many of our usual activities had been curtailed due to the Pandemic. Anneke Integral and users of the Therapy Center enjoyed our adapted bikes.

We now have seven DUET adapted electric bicycles, two children's Wee-hoo trailers, a tricycle and three running chairs

We can use on the six specially adapted bicycle routes around San Juan de Alicante

### Madrid

At the beginning of September 2021 and because of the Bank of Santander in the call "Euros de Tú Payroll" donation we were able to reopen the first and only adapted bicycle rental service. Thanks to Mobeo, a bike rental service, who added the Foundation Lukas bikes to its usual fleet.

**CHOOSE THE MODEL THAT BEST SUITS  
YOUR NEEDS AND ROLL!**

**mobēo.es**  
Alquiler de Bici para toda la familia

In the Mobeo store we have 3 Duet bikes, 2 Fun2Go, 2 Co-pilot and 1 Midi

**Santander**

LUKAS FOUNDATION, HELP FOR THE DISABLED  
ANNUAL REPORT 2021

On International Day of the People with Disabilities, we took part in the Madrid River event with our adapted bikes. This volunteer event organized with employees of Banco Santander was funded by the "Euros from your Payroll" donations.

Together we all pedal for our wonderful project  
"Smiles on wheels!"

**Even the television channels reported  
on our adapted bikes!**

RTVE broadcasted a  
programme on our  
adapted bikes for their  
"Spain Direct" series

TeleMadrid presented  
our leisure project  
"Smiles on wheels"

## Who can use our adapted bicycles?

- People with functional diversity
- Entities related to disability and dependency
- Integration Schools
- Any company or entity that wants to disseminate this adapted leisure resource

[www.bicisfundacionlukas.org](http://www.bicisfundacionlukas.org)

# INTEGRATION PARKS

The Pandemic has demonstrated the importance of outdoor activities. For this reason, the Lukas Foundation continues to support the design and construction of inclusive and integrated parks.

- We have written the Construction and Equipment Manual for Integration Playgrounds, considered a reference in the Accessibility Manual for urbanized public spaces of the Madrid City Council.

- Integration Park in the CEIP Escuelas Bosque, so the children can go out to play together in a natural way.

- Integration Garden and Park in the LKF Center that allows families to enjoy adapted games, the experience of inclusive leisure in the sensory garden and family time in the accessible garden area.

- Public park adapted for people with disabilities located in the Alicante town of Busot.

# SUSTAINABILITY

**As a social entity we have always maintained an important commitment to sustainability:**

Since 2018 we have had the first adapted electric car in Spain, which allows our young people to go out with their caregivers when necessary. Our transport model is always clean because we also have adapted bicycles.

LKF Center uses solar collectors for hot water, photovoltaic panels to obtain electricity, and also has a system for the re-use of rainwater and water.

**We continue with our commitment together with other entities in the "Pact of Foundations for Climate."**

# WE ARE CONNECTED

## Website visits

Fundación Lukas ayuda a niños y jóvenes con diversidad funcional grave así como a sus familias

[www.fundacionlukas.org](http://www.fundacionlukas.org)

## 20.087 VISITS

from July to December 2021

Due to changes made to the web, we were unable to count visits from January to June but we estimate that the number should be similar to the second semester.

More than **25** appearances in the media, including: ABC, RTVE, Diario Información, La Cope, Telemadrid, Somos L'Alacantí... Thanks to the visibility for the Announcement of Banco Santander 'Euros de tu Nómina', the BBVA Asset Management 'Sustainable Future' and our bicycles adapted to the different media, have given us much publicity and we have met many more people!

As of July 1, 2022

LUKAS FOUNDATION, HELP FOR THE DISABLED  
ANNUAL REPORT 2021

# EVERYTHING IS POSSIBLE THANKS TO

## OUR VOLUNTEERS

We have focused any in person volunteering in person on outdoor activities in order to avoid Covid complications. We want to thank all volunteers who participate in events, do translation work, go out with adapted bicycles and support activities within the House-Home.

73 volunteers

## OUR FAMILIES

In 2020 families were an important support for the Lukas Foundation, and again in 2021 they have proved to be a fundamental pillar in the Lukas Foundation. In the second part of the year, family visits resumed at House-Home, mostly outdoors, or in common areas using masks and at safe distances.

## OUR TEAM

We returned to face-to-face in 2020, and in 2021, we continue to adapt to the new situation, always taking all measures necessary security and safety. We conduct training sessions to continue growing professionally to give an ever improving service to our users.

## TRANSPARENCY

Transparency is a fundamental value for us, which is why since 2011 our accounts have been audited and are available on our website. Since 2013 we voluntarily submit to the analysis of the Lealtad Foundation and for this, we have the Accredited NGO seal.

# OUR NEXT CHALLENGES

- Approach Government and request an economic endowment according to the assisted sheltered housing model for people with severe disabilities
- Re-launch the Family Support programs: Respite Family, Temporary Stays and Awareness Sessions
- Expand the Therapy Center to offer a greater number of therapies and better quality.
- Continue relying on a sustainable model committed to the environment
- Scale up and replicate the adapted bikes service to any Spanish location.
- Collaboration between entities of people with functional diversity so that any person in a situation of dependency can ride a bicycle.
